

PROGRAMACIÓN CON ROBOALAB

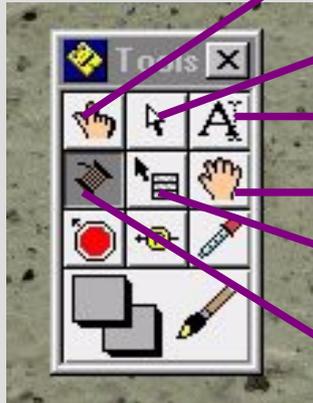

VENTANAS

The image displays the ROBOLAB software interface. The main window is titled "ROBOLAB Untitled 1.vi Diagram *". The menu bar includes "File", "Edit", "Operate", "Project", "Window", and "Help". The "Window" menu is highlighted with a red box. Below the menu bar is a toolbar with icons for navigation and editing. The main workspace is a large blue area containing two traffic light icons. Three floating windows are visible:

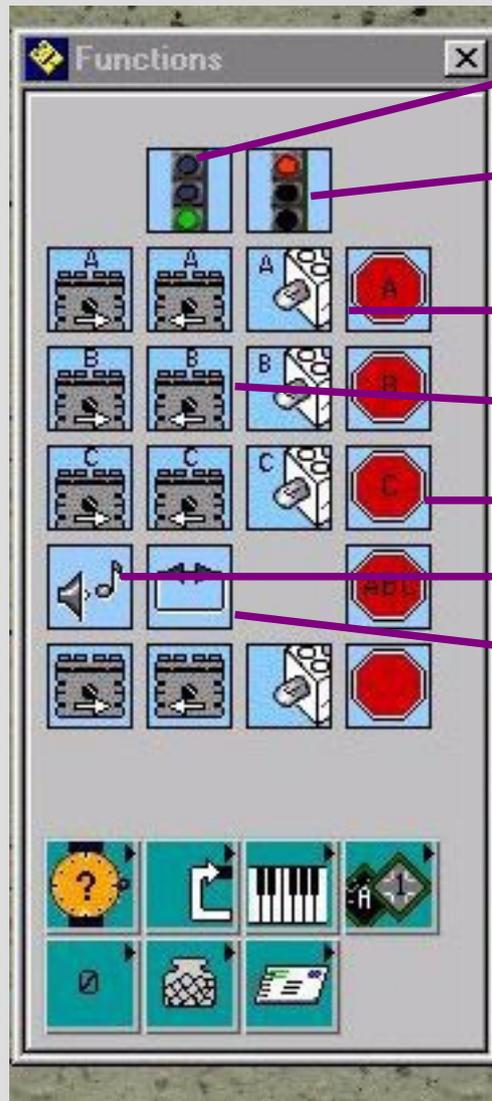

- Functions:** A window titled "Funcions" (misspelled) containing a grid of various function icons, including traffic lights, motor controllers, and sensors. The title bar is highlighted with a red box.
- Tools:** A window titled "Tools" containing icons for selection, deletion, and drawing. The title bar is highlighted with a red box.
- Help:** A window titled "Help" displaying the documentation for the "Motor A forward" function. The title bar is highlighted with a red box. The content includes a diagram of the function block, the title "Motor A forward [Motor A forward.vi]", and a description: "Turn on the motor connected to port A in the forward direction. The default is at full power." It also lists modifiers, including "Power Level: String a single modifier to choose the power level for the motor."
